Talking points:

- *School curriculum changes including Marxist and critical race theory, gender ideology, attacks on Israel and western civilization; and activist teachers and administrators.*
- *Biological Males in Girl's Sports*
- *If passed the Fairness Act adds sexual orientation, gender identity, and gender expression as protected classes. This act would codify into law the changes the Pennsylvania Human Relations Commission (PHRC) made when it changed the definition of sex to include these categories.*
- *Engaging in civil discourse, a trait our Founding Fathers believed to be crucial to our country's success.*
